

ISTANBUL · LOS ANGELES

Who Is Boxx

Boxx Coffee Roasters was founded in Istanbul, Turkey in 2015 and we have opened our second roastery in Downtown Los Angeles Arts District in 2021. As an artisan roastery who sources from our long-time partners around the world, we cultivate direct relationships to ensure access to the finest beans. We strive to maintain beans own fruity and floral aroma and flavor and we value aroma clarity while maximising acidity and sweetness.

Espresso Blend No. 1

Blend No. 1 features a washed high-altitude Guatemalan from Huehuetenango region and a natural Ethiopian from Guji. High altitude Guatemalans are all known for their high density which allows them to develop full bodied and well-balanced espressos with cacao and almond notes. Blended together with a natural Ethiopian, it is a winning combo with a full body and buttery mouthfeel. Blend No.1 is a sweet espresso with notes of cacao, tart cherry, and almond finish.

Filter Ethiopia Sheka

Coming from Haile Gebrsealassie's farm - a farm separated into 46 identifiable plots each with specific planted varieties and processing methods- this is an exceptionally clear natural process Ethiopian coffee.

In addition to following socially and environmentally friendly practices, this farm meets the requirements for Organic and Rainforest Alliance certification. Yeppo Village offers local coffee farmers training opportunities in agronomy best practices and methods for increasing cup quality.
