ABOUT PRESS COFFEE

The Press Coffee story begins in 2008 with Steve Kraus and his wife Tram Mai who had a passion for great coffee. Not finding the quality they were looking for, they decided to start a specialty coffee shop of their own. Opening just months before the recession of 2008 Steve and his wife were tested from the very start.

Fortunately, Steve and Tram's passion and commitment for making great coffee won the loyalty of their customers and kept them afloat. 15 years and 12 valley locations later, Press Coffee has become an Arizona staple among specialty coffee enthusiasts while earning national recognition for their coffees. Although Press has evolved over the years, they have stayed true to their beginnings: sourcing the best possible product, using only the best equipment; and most importantly, finding team members that share the Press passion for amazing coffee. Remaining quality driven and community focused, Press Coffee not only supports Arizona charities but the coffee farmers around the world supplying our passion.

SUSTAINABLE AND ETHICALLY SOURCED SPECIALTY COFFEE
