ABOUT PROVISION

"Provision started in 2011 with the idea of bringing the stories of smallholder coffee producers to coffee buyers and drinkers.

We wanted to have fully transparent buying practices, and through that vision Provision grew into a coffee roaster, wholesale, and retail company.

Our goal was, and remains, to make coffee approachable for all people. We continue to be quality focused, with the emphasis on longevity, commitment, and sustainability. Through this vision, we have our mission statement:

"To build community through quality coffee, food, and beverage."
